REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

There was no prior art found by the examiner that suggested modification or combination with the cited art so as to satisfy the combination of all the limitations in claims 10, 39, and 49.

As to claims 10 and 39, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“a plurality of detectors that are positioned to receive attenuated light from respective light transmission paths and that provide respect signals that are indicative of a light intensity associated with the received attenuated light”** and **“an exhaust controller that receives the control signal from the processor and automatically activates an exhaust fan to remove contaminated particles from the chamber when the contaminated particle count exceed a predetermined threshold, the exhaust controller automatically activates the exhaust fan before, during, and after photoresist coating and development”**, in combination with the rest of the limitations of claims 10 and 39.

As to claim 49, the prior art of record, taken alone or in combination, fails to disclose or render limitations **“means for receiving the transmitted light after the light is attenuated by contaminated particles within the aerosol”**, **“means for determining a contaminated particle count from the attenuated light”** and **“means for dynamically controlling the amount of contaminated particles in the chamber during substrate processing by cleaning the chamber when the contaminated**
